

One Special Star

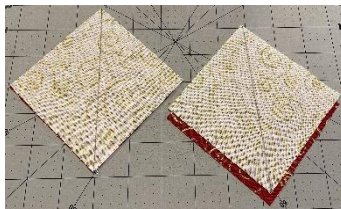

Supplies and Cutting:

Green: Four 3 ½" squares and four rectangles 3 ½" X 6 ½"

Red: Two 4" squares and four 3 ½" squares

Cream: Two 4" squares and four 3 ½" squares

Step 1: Place the 4" cream squares and 4" red squares right sides together. Draw a line diagonally down the center of the cream squares and sew ¼" on each side of the line, then cut on the center line. Press the HST's open and trim to 3 ½" square.

Step 2: Sew the squares into pairs and then sew the pairs together to make the pinwheel center for the block.

Step 3: Place a 3 ½" cream square right sides together on the left side of the green rectangle. Draw a line diagonally, pin and stitch on the line. Trim off extra fabric to leave a ¼" seam allowance and press open.

Step 4: Sew a red 3 ½" square to the right side of the rectangle and draw a diagonal line through the center as shown. Pin and sew on the line. Trim to ¼" seam allowance and press open. Make 4 of these flying geese units.

Step 5: Sew 2 of the flying geese units to opposite sides of the pinwheel square. Sew a green 3 ½" square to each end of the 2 remaining flying geese units, and then sew onto block. Sew the three rows together. This makes a 12.5 inch unfinished block.
